

Whistleblowing Platform

Help us recognise problems at an early stage and let us know about them:

You can use our new reporting platform to inform us if you witness an incident that violates company policy or the law. All information you share via the reporting platform will be treated confidentially and is protected by the Whistleblower Protection Act (HinSchG).

No IP addresses are stored, data is end-to-end encrypted and metadata is removed to protect your identity.

How to submit a report:

1 Scan QR code & open registration page

Scan the QR code with your mobile phone or open the link to the reporting platform.

2 Fill in the form & submit

Fill in the form **truthfully** and then send the message.

3 Save the password for later access

Save the individual password carefully in order to receive information about about your case.

Important: Your personalised password cannot be reassigned!

4 Report & track your message

Use your personalised password to access the report page at any time and track your report.

Important: Without the password, you will no longer have access to your report!
